

Algebra and Pre Algebra Students

If there will be times this year when you do not understand the material presented in the textbook, please go to www.PHSchool.com and select textbooks. Look for the textbook that looks like yours. Click on it. Then go to the chapter we are studying. You will then see the lessons for each section in that chapter. The tutor will walk you through the lesson.

Preparing for tests can be a challenge. What do you study? The chapter test online gives you the types of problems that will be on the test in class. Please take it as many times as you wish. You will be prepared for the test if your score is 19 or 20.

Parents, you will notice that your student has homework every night including weekends. The night of the test they will do the SAT prep page in their book.

There will be a final exam the week before Memorial Day weekend. The exam covers the entire book. Students will have two days to complete the exam. A copy of a similar exam appears on the website listed above.

If you have questions, please email me at eagles1947@msn.com.

Blessings,
Mrs. Lister
